Mark Venuto
Regional VP, Alliance Channel
AT&T Global Services

April 1, 2009

Dear Valued Customer:

We are pleased to acknowledge ValueComm as a 5 Star Solution Provider of AT&T's business communication products and services. ValueComm was selected to become an AT&T 5 Star Solution Provider because of its demonstrated experience, capabilities and qualifications.

As a valued representative of AT&T's retail business products and services, ValueComm is equipped to determine effective solutions for your business. ValueComm has access to the training and necessary tools that support its ability to provide a comprehensive analysis of your firm's communication requirements.

An AT&T Solution Provider has a direct link to AT&T's network services and their required technical support. Don't confuse a Solution Provider with resellers in the telecommunications market. ValueComm has the expertise to apply AT&T provided network technology to your firm's unique requirements, helping it to benefit from AT&T's network power, today and into the future.

If you have any questions regarding AT&T Solution Providers and how they can help identify your business needs, please contact the AT&T Channel Account Manager, Dan McCoy at (847)934-8893.

Sincerely,

A handwritten signature in cursive script that reads "Mark A. Venuto".

Mark Venuto
Regional Vice President
